PROFESSIONAL SUMMARY

MERN Stack Developer with strong hands-on experience in building scalable, production-ready web applications using MongoDB, MySQL, PostgreSQL, Express.js, React.js, Next.js and Node.js. Specialized in backend development, REST API design, secure authentication (JWT), and role-based access control (RBAC).

Experienced in developing real-world systems including ICHR registration platform, CBT exam systems, admit card generation, and multi-role task management applications. Skilled in designing efficient workflows, admin dashboards, and managing complete application lifecycle from development to deployment.

CORE SKILLS

- Backend: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control (RBAC), MVC Architecture, API Optimization
- Frontend: React.js, Next.js
- Database: MongoDB, Mongoose, PostgreSQL, MySQL
- Cloud & Tools: AWS, Git, GitHub

PROFESSIONAL EXPERIENCE

Walrus Solutions Private Limited, Indore — *Software Developer*

Mar 2026 - Present

- Developed and maintained scalable web applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Designed and implemented secure REST APIs with JWT authentication and role-based access control (RBAC)

- **ICHR,NFL And RHTC Registration & Admin System**

- Built and managed complete application workflow including user registration, form submission, and admin panel

- Developed admin dashboard for data management, filtering, and user handling

- Tech Stack: MERN

- URL: https://admin.ichrreg.com/

-URL: https://admin.rhtcreg.com/

- ICHR Public Portal

- Developed user-facing platform for registration and application submission

- Ensured smooth user experience and validation handling

- Tech Stack: MERN

- URL: https://ichrreg.com/

- URL: https://rhtcreg.com/home

- URL: https://nflreg.com/

- **Hall Ticket / Admit Card System**

- Implemented dynamic hall ticket generation with download functionality

- Integrated backend APIs for secure data handling and document generation

- Tech Stack: MERN

- URL: https://hallticket.online/

Achyuta Software Private Limited, Lucknow — *MERN Stack Developer*

Sep 2024 - Feb 2026

- Developed and maintained full-stack applications using MERN stack (MongoDB, Express.js, React.js, Node.js)

- Designed secure and scalable backend systems using REST APIs, JWT authentication, and role-based access control (RBAC)

- **CBT (Computer-Based Test) Exam System**

- Designed and implemented complete exam workflow including exam setup, question bank, paper generation, and result processing

- Built secure question paper handling system with encrypted JSON-based paper distribution

- Developed features for exam-wise, subject-wise, and shift-wise configuration and mapping

- Implemented bulk question upload via Excel with image mapping and validation

- Created randomized question paper generation logic to ensure exam integrity

- Developed candidate management system with bulk upload and center/shift mapping

- Built exam-day dashboard for monitoring center-wise candidate distribution

- Implemented result module with candidate-wise search and performance tracking

- **Task Management System**

  - Designed and developed multi-role workflow system with roles: Super Admin, Admin, Manager, Auditor, and Doer

  - Implemented task assignment, tracking, auditing, and status management features

  - Built admin dashboard for real-time monitoring, reporting, and workflow control

  - URL: https://ops.sysxyz.com/

Digicoders Private Limited, Lucknow — *MERN Stack Developer (Apprenticeship)*

Feb 2024 - Jul 2024

- Gained hands-on experience in MERN stack development including MongoDB, Express.js, React.js, and Node.js

- Assisted in developing and maintaining web application modules under senior developer guidance

- Learned and implemented REST API development, CRUD operations, and basic authentication mechanisms

- **HR Management System (Learning Project)**

  - Contributed to development of employee management features such as employee records, attendance tracking, and role handling

  - Assisted in building frontend components and integrating backend APIs

- **Technical Skills & Development**

  - Strengthened understanding of JavaScript, asynchronous programming, and API integration

  - Gained practical experience with Git, GitHub, and version control workflows

  - Learned code structuring, debugging, and best practices in real-world development environment

EDUCATION

Government Polytechnic Lucknow, — *Post Graduation Diploma In Computer Application*

Jul 2022 - Sep 2024, Lucknow

Bundelkhund University Jhansi, — *B.A*

Jul 2019 - Sep 2022, Banda

B.N.V Inter College Rath Hamirpur, — *High School and Intermediate*

Jul 2017 - Jun 2019, Hamirpur
